## LV Mats and Rolls

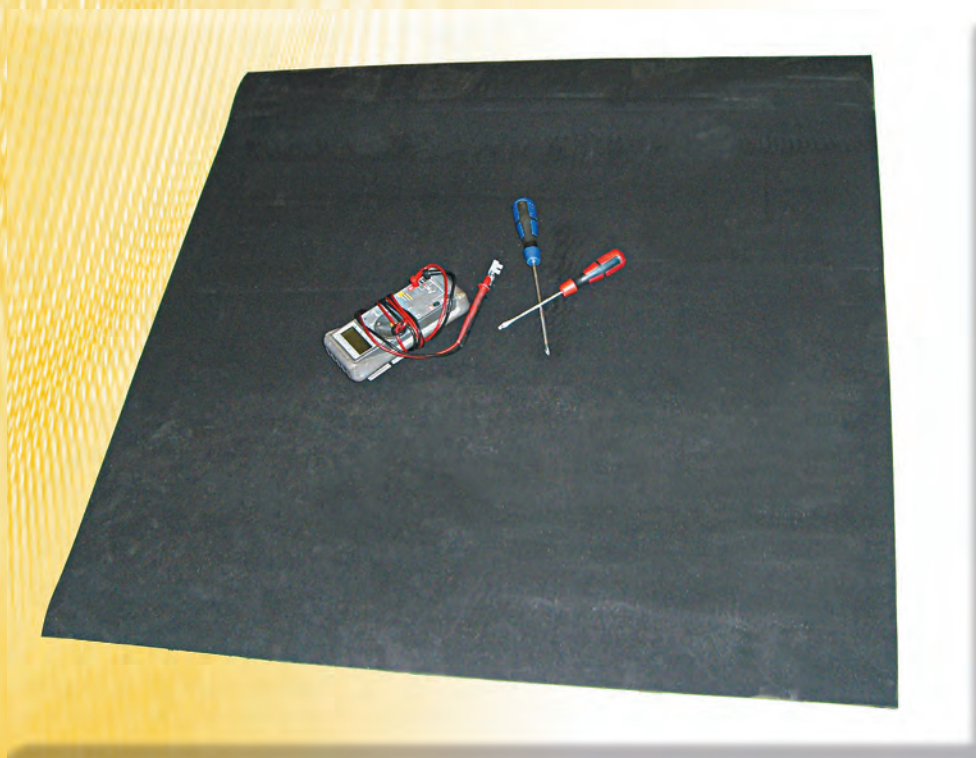

A high quality black, EPDM rubber insulation barrier used by Energy Networks and Contractors as PPE to stand on when working around conductors in low voltage environments.

Because of their light weight, these rubber insulation mats excel as portable, temporary or on-site ground insulation.

The mats are made from a special flexible EPDM rubber which reduces the tendency of the mat to curl after being stored in a rolled position.

### Features:

- High grade EPDM rubber.
- Light weight and portable.
- Flexible with low memory effect.
- Excellent resistance to weathering, UV and ozone.
- Non-slip, easy to clean cloth finish.
- Conforms with AS 2978.
- Good temperature stability.

**Rubber also available  
cut to size, as per  
your requirements.**

### Part number and description

<b>3EPDM1000LV</b>	1000 x 1000 x 3mm, black EPDM rubber mat, conforms with AS2978 Class B, max use 650 volts, indoor use only
<b>3EPDM10000LV</b>	10000 x 1000 x 3mm, black EPDM rubber roll, conforms with AS2978 Class B, max use 650 volts, indoor use only, one mark per roll
<b>6EPDM1000LV</b>	1000 x 1000 x 6mm, black EPDM rubber mat, conforms with AS2978 Class A, max use 650 volts
<b>6EPDM10000LV</b>	10000 x 1000 x 6mm, black EPDM rubber roll, conforms with AS2978 Class A, max use 650 volts, one mark per roll
